RAMNEEK CHEEMA, MSc 519-497-2170 | ramneekcheema@gmail.com | LinkedIn| Website

PROFESSIONAL EXPERIENCE

Research Consultant, Sentinelle Nord **(**Sentinel North), Université de Montréal Present

- **Built Python-modelled projected shifts in marine species** abundance and **ecosystem productivity** under varying **IPCC-emissions trajectories through 2100**, supporting climate resilience planning
- Synthesized multi-sector datasets **(climate, economic and health; 50K data points)** to **analyze population health trends** and **upstream social determinants of health** and **translate** into **strategic, insight-driven narratives**
- **Collaborated** across climate scientists, economics, public health researchers and **Inuit community leaders** to align modelling outputs with institutional sustainability objectives

Quantitative Modelling Lead and Project lead, Climate Change Food Security for Four Nations, UOttawa Jan 2023 - Dec 2025

- Acted as **primary partnership lead** for Indigenous leadership, academic institutions, and government-adjacent partners, **delivering** executive briefings, and structured decision materials that supporting **long-term adaptation strategy execution**
- Led the development, validation and implementation of **ecological** and **optimization models** in **Python, R,** and **SAS** to assess climate-driven changes in marine species abundance impacts to human health under **IPCC-aligned RCP scenarios, improving accuracy by 40%**
- Designed and integrated **scenario-based modelling frameworks** combining **environmental projections, fisheries stock data, health indicators and social determinants of health** to evaluate food system resilience under transition and **physical climate risk pathways**
- **Led multi-institution collaboration** (UOttawa, UBC, UdeM, Stockholm Resilience Centre), managing research timelines, stakeholder communications, and data-sharing protocols to deliver actionable climate-adaptation outputs

Advisory Panel Member, StopSCAM, University of British Columbia Feb 2025 - Present

- **Co-led national knowledge mobilization** campaign in partnership with UBC medical school, BCCDC, and U of A Law School; co-developed **strategic educational frameworks** for public engagement and behaviour change
- **Co-led** on research activities such as development of methodologies, **manuscript writing**, **conference presentations,** and **grant proposals securing $500,000 of funding**

Teaching Assistant, University of Ottawa Jan 2023 – Dec 2024

- Provided **individualized academic advising and learning support** to undergraduate students through office hours and one-on-one consultations, strengthening problem-solving skills, conceptual understanding, and confidence with course material
- Facilitated tutorials and laboratory sessions, **translating complex course material into accessible learning experiences** and reinforcing key theoretical and practical concepts

Project Implementation Manager, Manulife, Waterloo, ON July 2022 – Dec 2022

- **Managed a portfolio of 70+ cross-functional initiatives**, tracking milestones, risks, and dependencies in **Salesforce** while aligning legal, operations, and finance teams on approvals and delivery timelines
- **Translated complex financial and policy implications** into clear stakeholder recommendations, ensuring alignment with **client equity and compliance goals**
- **Drove project execution discipline** through weekly decision cadences, enabling the closure of **25+ projects** and improving overall **on-time delivery and interdepartmental accountability**

Assistant Manager, Williams Fresh Café, Waterloo, ON June 2016 – Mar 2020

- Managed scheduling, payroll, and daily operations for an 8-person team, optimizing labour allocation to **reduce overtime costs by 35% while maintaining service standards**
- Trained and **developed 15+ new hires**, **improving employee retention by 60%** and **strengthening customer service** consistency

LEADERSHIP EXPERIENCE

Co-Chair for Ottawa-Carleton Institute of Biology (OCIB) Symposium, Ottawa, ON Oct 2024 – Oct 2025

- Planned and delivered stakeholder convening, workshops, and symposium style events with **attendance of 300+, and including securing $25 000 in industry sponsorships** and facilitating programming that strengthened long-term partner engagement

Board of Directors for St. Mary's General Hospital Volunteer Association, Kitchener, ON Sept 2021 – July 2023

- **Led strategic community partnerships and annual campaigns and donor stewardship activities** contributing to **$1M+ raised**; presented monthly financials and forecasts; strengthened volunteer retention by **25%** through recognition and training

EDUCATION

MSc. (Biology, Specialization in Environmental and Chemical Toxicology), University of Ottawa 2025

- Thesis: Scenario-Based Optimal Diet Modelling to Evaluate Climate Change Impacts on Food Systems in Two Coastal First Nations in British Columbia

Honours BSc. (Biomedical Sciences- Bioinformatics), University of Waterloo 2022

- **Awarded Merit Scholarship**; Extracurricular: Marketing Director for Science Society and **member of the Youth Council for the Minister of Diversity of Inclusion and Youth**

Project Management Professional (PMP) Certificate, University of Toronto (School of Continuing Studies) Expected June 2026

SKILLS AND QUALIFICATIONS

Technical skills: MS Office, R (tidyverse, lme4/nlme, RMarkdown), Python (Pandas, NumPy, Matplotlib), SAS, Salesforce
Soft skills: Stakeholder engagement, partnership development, environmental strategy, climate adaptation, cross-sector collaboration
